

## DID YOU KNOW...

one teaspoon of salt pollutes five gallons of water?

# Let's SALT FISH ON OUR PLATES, NOT IN THE LAKES!

Salt and sand on sidewalks & streets wash into our lakes and creeks.

Please attend this salt application workshop.

This training will:

- SAVE YOU MONEY
- PROTECT OUR WATER

This Smart Salting training is geared towards those who use or buy deicing salt at places of worship and nonprofits. Maintenance staff and organization leaders are encouraged to come to learn the basics of using salt wisely. This initiative aims to build community, save money, and protect the environment while still keeping members safe.

Light, kosher snacks will be served. Presentation includes a short, hands-on activity outside. Child care is available upon request.

**REGISTER TODAY!**
