

ECOFAITH NETWORK POWER-UP

FEBRUARY 8, 2020
10:00 AM - 2:00 PM

ST. LUKE'S LUTHERAN CHURCH,
BLOOMINGTON

WORSHIP

Starting our day together, we ground ourselves in faith through worship. Expect to hear from Bishop Ann Svennungsen about her vision for the MPLS Area Synod to fulfill our call to care for creation.

RUTH IVORY-MOORE

Ruth is ELCA's Program Director for Environment and Energy. She will be highlighting the creation care work on the ELCA national level and making connections to water and climate change.

WATERSHED DISTRICTS

There will be an opportunity to connect with your watershed district in a time of learning, relationship building, and dreaming of the work we can do to support our watershed districts together.

LEGISLATIVE ACTION

Working powerfully together to care for creation requires both personal and institutional change. By demonstrating our people power, we have the opportunity, as people of faith, to push for a bill to be passed .
